a revision to the old method.
It is proposed to prescribe
a detailed study of both English

the old examination. The
marks obtained at the Despatch

of account and the marks
obtained at the final

Some of the changes proposed require further consideration

I (2) In my opinion it is not desirable to leave the number of working days for which attendance is compulsory by fixing a percentage as it would leave very much to the discretion of the heads of the institutions concerned chiefly private as to the number of working days they should have. The old rule which fixes a minimum seems to be better

The elective subjects: the proposal is not satisfactory. Botany cannot compare in difficulty with Algebra & geometry. As it is necessary to have it as one of the subjects, I should add in addition
Physiology

Again under B optional.

Physics & Chemistry should be separate subjects

The expression supplementary candidates is incorrect. It may be altered into candidates for supplementary certificates

With these few changes

I agree; 150 days

may remain. It is sufficiently low & will not cause any difficulty even in case of temporary closing owing to plague &c.

I am sorry I cannot agree to the proposed grouping B in the draft notification.

(1) The grouping suggested at A in page 8 of these notes in my note of 15.4.17 is decidedly better.

(2) History of India or History of England cannot be taken as equivalent to Physics & chemistry or Algebra and Geometry.

(3) In the University Entrance Set, a boy has to take up besides English & Vernacular one of the following groups:

- (1) Physics, Chemistry and Mathematics
- (2) Physics, Chemistry and Natural Science
- (3) History, Logic & Sanskrit (or Persian)
- (4) History, Logic & Elementary Economics

(4) How is a boy taking only (1) History of India & (2) History of England as the two optional subjects ^{in the S.S. L.C.} to manage group (3)?

The grouping as proposed is very unequal. Again if a boy takes Sanskrit & any other subject of group B how will the other subject help him in the Entrance.

(5) Coordination of courses is very important & I would therefore recommend

that the ~~group~~ group B as proposed by me and the subjects to be taken up by those intending to go up for a certificate course as indicated in my note of 15.4.17 be adopted.

16 In the science course the entrance class boy will have previous knowledge of all his subjects -

17 In the arts course according to the I.S.'s proposal out of 3 subjects the boy will have previous knowledge of only one, he being required to begin two new subjects. According to my proposal he will have previous knowledge of two of the three subjects, logic only being taken up as a new subject.

I agree to the group (1) History of England & India
(2) Commerce. In fact this is already
included. It is not understood why the
H. has reported the proposal now.

As regards Physics, Chemistry & Commerce
I do not quite see what this group will lead
to in the Entrance Exam & in the University.
With Physics & Chemistry a boy must take
up either Math. or Nat. Science in the
Entrance. A boy with Physics, Chemistry
& Commerce will be handicapped in the
Entrance. Such a grouping does not therefore
appear desirable.

87) It must be clearly understood that these
groupings are only for those that want to
proceed to the University. For others any two
subjects may be taken and for them (1) Physics &
Chemistry and (2) Commerce is a possible

Reasons, Remarks, etc.

The altered groupings are in accordance with the suggestions of the Govt. made in letter no. 2061 of 25.8.17. Along with Elementary Economics Commercial subjects are now included in consideration of a commerce degree having been instituted in the Mysore Univ.

History of India & History of England were suggested to be considered as one & the same subject, and the present proposals are in accordance with this suggestion.

Also the commercial subjects have now been shifted from group C to group B. This seems necessary in view of commercial subjects being included among electives for qualifying candidates taking up a collegiate course after completing S.S.C.

No. of Rule	As sanctioned in min. of 25.8.17	Alterations suggested	Reasons, Remarks, etc.
V. (b)	The marks obtained at the final Public Exam ⁿ as well as the final marks obtained after moderation shall be entered by the Board in the certificate book.	The marks obtd. at the Public Exam ⁿ , the moderated marks and the final marks obtd. after such moderation shall be entered	The alteration seems to be reasonable; the moderated marks also will be shown sep ^{ly} under the revised rule.

VII (1)	This rule (about candidates seeking suppl. certificates not being required to alter the school-course & the public ex ⁿ in the group in which they have already obtd. satisfactory marks) applies to candidates who fail in the public ex ⁿ of 1918 & subsequent years.	Orders have ~~now~~ been communicated to the D.S. that the compartment system will be given effect to only from the next academical year. The alteration recommended by the D.S. may be appld. because it is proposed to give the benefit of the system to students failing in the ex ⁿ of 1918 who appear a second time only in March 1919

SIR,

Edn 10-15-30 8 29 6 16

Adverting to Government Order No. 7671/Edn. 29-6-16 requesting me to submit proposals regarding such changes in the rules for the award of Secondary School-Leaving Certificates in Mysore, as are necessary to harmonize the school course with the course of studies at the new University, I have the honour to state that the subject was discussed at the 17th, 18th and 19th meetings of the Secondary School-Leaving Certificate Board held on 25th September 1916, 22nd December 1916 and 22nd January 1917 respectively. A statement containing the present rules and the proposed alterations with reasons is herewith enclosed.

It is the intention of the Board to bring the revised rules into force from the beginning of the next official year. The syllabuses in the several subjects and the subsidiary rules framed under the rules have also to be revised after the approval of Government for the proposed changes is received. I therefore request you to be so good as to obtain as early as possible the approval of Government for the modifications proposed in the rule and for the changes in the certificate form. A copy of the rules as amended by the Board is enclosed for publication in the Gazette.

Same reasons as stated in connection with Rule III (2) The inclusion of Pedagogics as an optional subject was suggested by the Education Committee of the Economic Conference and was approved by the Secondary School-Leaving Certificate Board.
Rule IV	(2) The Certificate of a pupil who is not, in the opinion..... relating to the term, column III, and then forwarded to the Secretary to the Board for inspection. When it is returned to the Head Master it shall be handed over to the pupil.	The certificate of a pupil who is not, in the opinion of the Head Master..... relating to the term and handed over to the pupil.	It was considered unnecessary to send such certificates to the Secretary to the S.S.L.C. Board.
Rule VII	<u>(1) Supplementary Certificates.-</u> (1) If a pupil wishes to improve the certificate thus awarded to him whether in regard to its quality in one or more subjects already brought up or by bringing up additional subjects under list B. or C., he may go back to the same or any other recognized school and appear at a succeeding ~~year~~ examination conducted by the Board in any subject or subjects in which the examination is held.	<u>(1) Supplementary Certificates.-</u> Supplementary Candidates who have already obtained in any one group (Compulsory or Optional) satisfactory marks as recognized by the Board, need not be required to attend the school course and the Public Examination in that Group.	This recommendation is based on the principle now generally accepted that the strain involved by examinations on the candidates should be lightened as far as possible consistently with efficiency.

Suggestions made by the Financial Sec.
by the Financial Sec. I.E.S. arguments

45 60
Financial Sec's
argument

150 days may remain.
It is sufficiently low and
will not cause any difficulty
even in cases of temporary
closing owing to plague etc.

The 75% rule is
preferable as the no. of
working days of each High
School cannot always be the
same as some of these may
have to be closed during
working seasons on account
of plague or other such reasons.

It correspond with the H.S.
Entrance course and lead up
to it group B should be as follows:-

1. Physics + Chemistry
2. Algebra + Geometry
3. Natural Science (Botany + Physiology)
4. History of India + England
5. Sanskrit or Persian
6. Elementary Economics.

Those who wish to take up Collegiate
course must go in for one of these groups:-

- 1 + 2
- 1 + 3
- 4 + 5
- 4 + 6

The Board resolved that
the group originally suggested
be retained as it was proposed
after due consideration of the
grouping of the optionals in
the University classes.

The grouping at A is decidedly
better as History of India or History
of England cannot be taken as
equivalent to Physics + Chemistry or
Algebra + Geometry.

In the H.S. Entrance a boy has
to take up besides English + Vernacular
one of the following groups:-
(1) Physics, Chemistry + Mathematics
(2) do do + Natural Science
(3) History, Logic + Sanskrit
(4) do do + Economics.

How is a boy taking only (1)
History of India + (2) History of England
as the two optl. subjects in the S.S.L.C.
to manage group (3)?

The grouping as proposed is
very unequal. Again if a boy
takes up Sanskrit + any other
subject of group B how will the other
subject help him in the Entrance?

In the Arts course according to
H.S. proposal out of 3 subjects the boy
will have previous knowledge of only one
he being reqd. to begin 2 new subjects.
According to the H.S. proposal he will
have previous knowledge of 2 of the
3 subjects being only being taken as a
new subject.

Coordination of course is very
important + the H. Sec.
records that gr. B as propd. by him
+ the subjects to be taken up by those
intending to go up for a collegiate
course, as at A, may be adopted.

Statement showing the present rules for the award of Secondary School-Leaving Certificate in Mysore, the modifications now proposed and the reasons for such modifications.

Number	Present rule	Rule as altered.	Remarks.
Rule I (2)	or for not less than 150 working days in each school year, unless by only a few days.	or for not less than 75 per cent of the number of working days in each school year, unless.....by only a few days.	The total number of working days in a school is a variable number depending on the number of days during which the school has been closed on account of plague or other epidemics. Hence a rule laying down a percentage of attendance is more reasonable than one with a fixed number of days of attendance.
Rule III(2)	The subjects of study will be those specified in Group A and at least two to be selected out of groups B & C: provided that in the case of candidates wishing to take up a collegiate course, both the electives are from Group B. It is open to a candidate to take a supplemental course in any number to gain a supplemental certificate. SECTION <u>Gen</u>
FILE No. <u>10-16</u>
SERIAL No. <u>36</u>

SIR,

In continuation of my letter No. 23469/949 dated the 29th March '17 and with reference to your D.O. letter No. 8903/Ed. 10-16 dated the 5th May 1917 in regard to certain alterations to be made in the revised - - rules for the award of S.S.L. Certificates in Mysore submitted to Government for sanction, I have the honor to state that the subject was again considered by the S.S.L.C. Board at its meeting on the 26th May 1917 and it was resolved that the rule fixing a minimum percentage of attendance viz., 75% as already proposed by the Board be retained as this rule - - seemed preferable. The fixed percentage is preferable as the number of working days in the case of each High School cannot always be the same, owing to the fact that some of the schools may have to be closed during working seasons on account of plague or other such reasons.

In regard to the grouping of optional subjects, the Board resolved that the grouping already suggested by the Board be retained, as it was proposed after due consideration was given to the grouping of optionals in the University classes.

It was further resolved by the Board that the new rules recently issued by the Syndicate of the Madras University in their Notification dated the 20th March 1917 (a copy of which is herein enclosed for the

perusal of Government) in regard to the standards to be applied in declaring eligibility of holders of the S.S.L.Certificates to University Courses of study be accepted with the exception that rule VIII of the Madras Notification need not be applied to candidates seeking admission to Colleges affiliated to the Mysore - University who are governed by Clause VII (1) of the revised - Mysore S.S.L.C. rules which, unlike the Madras rules, provides for a student failing in one of the two groups, compulsory or optional, bringing up for the next Public Examination, only the subjects of that group in which he failed in the previous public Examination. Students seeking admission to Colleges affiliated to the Madras University will, however, have to undergo a supplementary course in all the subjects, as required by the Madras - rules. A note to this effect has been inserted below Rule VII (1) and a final copy of the Revised rules is sent herewith for *the* approval of Government.

As the revised rules have to be brought into force immediately, I request that you will be so good as to obtain early - sanction of Government.

Notification.

Rules and directions of the Syndicate for the Admission of holders of the Secondary School-Leaving Certificates to University Courses of Study:-

I Admission of holders of Secondary School-leaving Certificates to University Courses of Study in the academic year 1917-18 and subsequent years shall be made only in accordance with the revised rules and directions of the Syndicate herein contained.

II Such holders only of Completed Secondary School-leaving Certificates may be admitted to University Courses of Study and will be registered as matriculates under Regulation 166 (a) as have been declared eligible for such admission by the Syndicate.

III Hereafter, a complete list of Certificate holders declared eligible for admission to University Courses ^{of study} will be published annually in the Fort St. George Gazette and a copy of this list will be furnished to each Principal of an affiliated College. In no circumstances may any Certificate holder not included in one of these lists be admitted to an affiliated College other than a College for Women; nor will any such Certificate-holder be entitled to registration as a matriculate under Regulation 166 (a) except as provided in para. V below.

IV. In the case of Certificates issued under the authority of the Govt. of Madras those holders of Certificates who qualify under either of the two following sets of rules will be included in the list of those declared eligible by the Syndicate for admission to University Courses of Study.

I.

1. Secondary school-leaving Certificate holders shall be eligible for admission to University Courses of Study whose marks ~~after~~ in the Public Examination or whose marks after moderation are not less than the ~~Presidency~~ Presidency average in the Public Examination in each of the Subjects in Group A and in two of the Subjects of Group C (one of which Subjects being Algebra and Geometry ^{or} Physics, or Chemistry, or English History) provided that the Examination or moderated marks obtained are at least 5 above the Presidency average in English and also 5 above the Presidency average in one of the above mentioned Subjects in Group C.
2. A Secondary School-leaving Certificate-holder who fails to obtain marks equal to the Presidency average in Vernacular Composition or in Elementary Mathematics shall be eligible for admission, provided he obtains excess marks in English and the other Subject taken together

equal in number to twice the number of marks by which he is deficient in the one Subject.

A Secondary School-leaving Certificate-holder who fails to obtain marks equal to the Presidency average in Vernacular Composition and in Elementary Mathematics shall be eligible for admission, provided he obtains excess marks in English equal in number to twice the total number of marks by which he is deficient in the two other Subjects.

3. A Secondary School-leaving Certificate-holder who ~~fails to~~ obtains marks above the Presidency average in one of the four selected Subjects in Group C, but who fails to obtain marks equal to the Presidency average in a second Subject of that Group shall be eligible for admission provided that in the former Subject he obtains excess marks equal in number to twice the number of marks by which he is deficient in the latter Subject.

4. A Secondary School-leaving Certificate-holder who fails to obtain marks equal to the Presidency average in Vernacular Composition, or in Elementary Mathematics, or in both and also in a second Subject of Group C may be declared eligible for admission, provided that he obtains excess marks as above both in the other Subject or Subjects in Group A and in the other Subjects of Group C.

II

1. Secondary School-leaving Certificate holders shall be eligible for admission to University Courses of Study whose marks in the Public Examination or whose marks after moderation are, of the total marks, not less than 40% in English, 35% in Vernacular Composition and in Elementary Mathematics, 40% in one Subject of Group C (Such Subject being either Algebra and Geometry, or Physics, or Chemistry, or English History) and 35% in any other Subject of that Group.

2. A Secondary School-leaving Certificate-holder who fails to obtain 35% of the marks in Vernacular Composition or in Elementary Mathematics shall be eligible for admission, provided he obtains excess marks in English and the other Subject taken together equal in number to twice the number of marks by which he is deficient in the Subject in which he fails.

A Secondary School-leaving Certificate holder who fails to obtain 35% of the marks in Vernacular Composition and in Elementary Mathematics shall be eligible for admission, provided he obtains excess marks in English equal in number to twice the

The total number of marks by which he is deficient in the two other ^{subjects.}]

3. A Secondary school-leaving certificate-holder who obtains 40% of the marks in one of the four selected subjects in Group C but who fails to obtain 35% of the marks in a second subject of that group shall be eligible for admission, provided that in the former subject he obtains excess marks equal in number to twice the number of marks by which he is deficient in the latter subject.

4. A Secondary School-leaving Certificate-holder who fails to obtain 35% of marks in Vernacular Composition, or Elementary Mathematics, or in both, and also in a second subject of Group C may be declared eligible for admission, provided that he obtains excess marks as above both in the other subject or subjects in Group A and in the other subject of Group C.

V In the Case of Certificates issued under the authority of ~~Secondary School-leaving Certificate-holder~~ Native States in the territorial jurisdiction of the University, similar standards for admission will be applied.

VI The moderation of the marks obtained by a holder of a Secondary School-leaving Certificate for the purpose of the above rules will be effected as follows:—

The individual mark gained by him for the last year at school in each subject will be multiplied by the average mark for the school at the Public Examination and the result divided by the average mark of his class for the last year at school. The figure thus obtained will be added to the individual mark gained by him at the Public Examination and the total will then be divided by two to obtain the final moderated mark.

VII Hereafter Candidates for admission to Colleges, who are holders of Certificates completed in a year previous to their candidature, must submit their certificates to this office for inspection not later than the 30th April. Every such Certificate will be judged according to the rules ~~of~~ in force for certificates completed in the year in which it is submitted for inspection except that in the case of certificates completed in 1916 or earlier the best performance in each subject in any year will be taken into consideration.

VIII Any Candidate for admission to University Courses of Study who in any year fails to qualify by reason of deficiency in any subject or subjects in which he has undergone examination will be required to undergo a Supplementary Course at School in all the subjects in which he appeared for the

The Examination. He must again appear at the final examination in a future Year in all such Subjects, in which he has thus taken the Supplementary Course, and his eligibility for admission will be subsequently be determined as if he had then appeared for the examination for the first time.

IX In all cases of certificates Completed in the year 1917 and thereafter, and in all cases of certificates the holders of which failed previously in any year to qualify for admission to University Courses of Study and have undergone Supplementary Courses at School during a succeeding School-Year, the eligibility of holders will be determined by the marks obtained during the last School-Year and examination only in each of the required Subjects, viz., in the case of Madras Certificates, the three Subjects of Group A and two Subjects of Group C of the School Course.

X Notwithstanding anything contained in the foregoing rules, the Principals of Colleges for women will be permitted to make admissions at their discretion of female holders of Secondary School-leaving certificates whether or not the names of such holders of certificates are included in the published list of certificate holders eligible for admission to university Courses of Study. Certificate holders so admitted to Colleges for women will be registered as Matriculates under Regulation 166 (a).

XI The lists published annually in the Fort St. George Gazette will contain the names of all certificate holders found to be eligible for admission to University Courses of Study in affiliated Colleges other than Colleges for women, under the rules and directions ^{issued by} of the Syndicate. It is, however, to be clearly understood that inclusion in the list confers on no certificate-holder the right of admission to any affiliated College. The Principals of Colleges are at perfect liberty to restrict admission to such applicants as they may select and are moreover required strictly to confine admission to such eligible certificate-holders as, judged by their certificates, may be expected to profit by the particular Courses of Study upon which they propose to enter in the College selected.

August 1917 conveying the approval of Government to certain alterations
in the rules for the Award of Secondary School-Leaving Certificate, I
have the honour to inform you that the approval has been received too --
late in the year. Almost all the Head Masters of the High Schools, - -
Government and Aided, are not in favour of giving effect to the altera-
tions this year, as the students made their choice of the groups more .
than three months ago when the school year began. In these circum-
stances, the old rules will be followed this year and the subject will
be placed once more before the next meeting of the Board.

Sir,

I have the honor to invite your attention to resolution No. 8 of the S.S.L.C. Board (copy enclosed) in regard to optional subjects and to request early orders of Government in the matter. It is intended to make commerce an optional course under group B which leads up to the University Career seeing that commerce now makes a part of the B.A. course. This will tend to give a mere practical direction to the studies pursued in the State. Moreover as one object of the S.S.L.C. is to lead up to the University, it is but reasonable to make provision of an introductory nature for subjects which are studied in a more advanced style in the University. ^{With} the assurance that Government would sanction this, I have given instructions to have the necessary syllabuses prepared by competent persons in the Department. I request very early orders so that there may be time to organize the course and appoint a staff.

SIR,

In continuation of my letter No. 19541/707 dated 11th instant regarding the revised S.S.L.C. rules, I have the honor to state that I find it possible to bring the Compartment System (Rule No. VII (i)) into effect immediately as decided upon by the Board. The word "Immediately" is somewhat ambiguous. It might mean that the System will benefit those who fail in the examination to be held this year in one or the other group or it might mean that it will benefit those who failed last year in one or the other group. The latter interpretation will be more in accordance with ^{the} Board's desire. In Madras too, where the Compartmental System was sanctioned for the Intermediate examination, it was made applicable in the case of candidates applying for the examination the very year it was sanctioned.

Since it is already the middle of February and the examination comes off very soon and we have to circularise the schools how exactly the matter stands, I request the kind sanction of Government for the interpretation I have recommended so as to bring the resolution into immediate effect and benefit the boys who failed last year. Rule No. VII (i) may therefore be kindly modified as follows:-

"This rule applies to candidates failing in the Public Examination of 1917 and subsequent years."

W D-0713-GPB-3,000-8-8-16

--2--

In regard to the fees payable by the candidates all of whom have already paid the full fees for the whole examination, no remission need be allowed this year on account of their appearing for one group only. This is what was done in Madras where the first batch of candidates for the Intermediate Examination under the Compartment System were given only the benefit of the System, without any remission of fees.

If, however, Government decide that the System can only apply to students who fail in the next examination i.e. the examination which will be held in March 1918, I request that it might be communicated immediately, so that I may circularise the schools.

SIR,

In continuation of my letter No. 19537/703 dated 11th February - - 1918, I have the honor to inform you that in the S.S.L.C. Course as at present organized commerce and teaching are included in Schedule (C) - which contains the optionals that do not lead up to University course. Now that commerce has already been included in the University course and it is possible for students to take a degree in that subject, the S.S.L.C. Board has proposed at its meeting held on 6th February 1918 that commerce be transferred to Group B to be taken as an optional leading up - to a University Course.

I propose that this inclusion may be given effect to, by constituting the following group of optionals:-

1. History of England, History of India and Commerce.
2. Physics and Chemistry and Commerce.

The necessary syllabuses have already been prepared & for giving a two year course in general commerce in the V and VI Forms allotting - about 4 hours per week in each class.

This will undoubtedly have the effect of enormously increasing the number of students taking up this practical subject.

But consequential reforms have to be adopted in order to make this innovation a success and to carry out the intentions of the S.S.L.C. Board. Since Commerce appears in the S.S.L.C. stage and also in the University course, some place must be found for it in the Entrance Classes also, so as not to put the students taking commerce in a position of greater difficulty or disadvantage relatively to students taking up the other courses. This is a matter for the Government and the University to decide.

I request immediate orders on this subject so that I might know whether I could inaugurate this reform next June.

I have the honor to be,

Sir,

Your most obedient servant,
